## TECHNICAL DATA SHEET

### **CM-820** **HEAVY DUTY LIQUID CLEANER**

#### **PRODUCT DESCRIPTION**

**CM-820** is a heavy duty, moderately alkaline liquid maintenance cleaner especially designed for industrial use. **CM-820** is fast acting with deep soil penetration properties.

**CM-820** is formulated for deep soil penetration to effectively clean surfaces with heavy soil deposits.

**CM-820** cleans all washable surfaces with a minimum effort.

Tile	Woodwork
Linoleum	Painted Walls
Wood	Machinery
Terrazzo	Automobiles
Marble	White Wall Tires
Concrete	Desk Tops

**CM-820** does not contain caustic alkali.

#### **PHYSICAL AND CHEMICAL PROPERTIES**

Appearance, Concentrate	Clear Light Brown Liquid
Specific Gravity	1.032
Pounds per Gallon	8.61
pH	12.3

#### **USE DIRECTIONS**

*Machinery:* Use **CM-820** at 1% to 5% by volume.

*Walls and painted surfaces:* Use **CM-820** at 1% to 3% by volume. Pre-test effect on painted surfaces.

*Floors:* Use 2% to 4% by volume for either machine cleaning or mop-and-pail application. For heavily soiled factory floors, use **CM-820** at 2% to 6% per gallon of water.

*Floor Wax Stripping:* Use **CM-820** at 4% by volume of hot water and scrub with mop to automatic floor scrubber. Floor should be rinsed prior to re-waxing.

#### **SAFETY AND HANDLING**

Refer to material safety data sheet for additional information about this product.
